

About Dolores Cannon

Registered/Certified Hypnotherapist, Certified Past Life Therapist

Dolores Cannon is a past-life regressionist and hypnotherapist who specialises in the recovery of “lost knowledge” to facilitate healing and closure. Dolores has been involved with hypnosis since 1968 and exclusively with past-life therapy and regression work since 1979.

Dolores has developed her own hypnosis technique (using the deepest possible level of trance, the somnambulist state) that enables her to gain the most efficient release of information from her clients. Dolores’ hypnotic technique also allows her to communicate with a patient’s ‘higher self’. This technique allows, in many cases, for instantaneous self-healing of physical, mental and emotional conditions. Dolores now teaches her unique hypnosis technique to students all over the world.

As an international speaker, she has lectured on every continent and is an author of nineteen books which have been translated into twenty languages and newspapers. Dolores was the first American and the first foreigner to receive the “Orpheus Award” in Bulgaria for the highest advancement in the research of psychic phenomenon. She is an honorary member of the all-Russian scientific-and-research centre of traditional folk medicine in Moscow. She has also received outstanding contribution and lifetime achievement awards from several hypnosis organizations.

Dolores has appeared on such major TV shows as: NBC “Ancient Prophecies,” CBS-“Mysteries of the Ancient World,” A&E biography series, Sci-Fi Channel-“Mysteries, Magic And Miracles,” CNBC-“America after hours,” CNN-“Voices Of The Millennium,” the History Channel “The Nostradamus Effect,” Project Camelot, and has been interviewed on over 1000 radio shows, including Art Bell’s “Dreamland” and George Noory’s Coast to Coast. Articles about/by Dolores have appeared in several U.S. and international magazines.

Dolores is also known for her investigations into the UFO and esoteric fields. She has done on-site studies of suspected UFO landings, and has investigated the crop circles in England. The majority of her work in this field has been the accumulation of evidence from suspected abductees through hypnosis. Dolores has also become, perhaps, the world’s most unlikely expert on the prophecies of Nostradamus. Working through several different subjects, Dolores was able to establish communication with the living Michel de Notredame, better known as the prophet, Nostradamus. His revelations and their impact on our own time are both fascinating and at times frightening.

In addition to the three volumes of “Conversations with Nostradamus”, Dolores has completed: “The Legend of Starcrash”, “Keepers of the Garden”, “Legacy from the Stars”, “A Soul Remembers Hiroshima”, “They Walked With Jesus”, “Jesus and the Essenes” and “Between Death and Life”. “The Custodians”, discusses in detail information regarding distorted time, screen memories, reasons for abductions, implants and much, much more....

Her recent books, “The Convolved Universe Series”, goes further into complex metaphysical theories and covers “mind-bending” concepts.
